## THE COLLECTION

# 5 Piece Kitchens & Bedrooms

The Shaker door continues to remain a firm favourite, with its pared back style and perfectly proportioned frame. It's renowned for being both a timeless and versatile design, hence why we've chosen to model our 5 Piece Collection on Shaker principles - simplicity, utility and honesty. 5 Piece doors provide you with a traditional, handmade aesthetic, whilst also giving you the flexibility of design through styles and finishes. Within our 5 Piece Collection we offer four beautifully designed, shaker style doors, each unique in their own right. Whether you prefer a classic or more contemporary style, each range is a blank canvas for you to add your own personal taste and make your dream kitchen and bedroom a reality.

## THE COLLECTION

# Edged Kitchens & Bedrooms

This collection consists of five contemporary Door Styles, designed with versatility and functionality in mind. Characterised by sharp lines, perfect proportions and distinctive edging, they provide flexible design solutions that are both simple and beautiful. However the more understated the style, the more important becomes the choice of finish. This collection provides an extensive range of Ultra High Gloss, Premium Super Matt, and Authentic Wood Effect Textures, allowing you to push the boundaries of design and create spaces that reflect your individuality.

## THE COLLECTION

# Painted Kitchens & Bedrooms

There's something truly special about a painted finish... whether it be its distinctive touch, or it's crafted aesthetic, it somehow instantly makes you feel right at home.

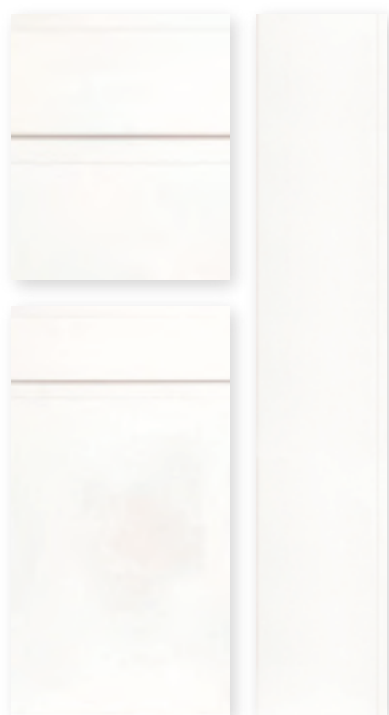

But for us, what we really love about Paint is its ability to give you choice and flexibility. It allows you to make a room your own, choosing colours to match your personal style and flair. From light to dark, bright to pale, there's a shade to suit everyone's individuality.

#### General guidelines for processing Duropal worktops:

- Always use sharp tools.
- Circular saw blades with flat chamfer teeth (FZ/FA) or alternating teeth (WZ) achieve best results.
- Reduce the feed rate when cutting through the post-formed edge.
- Spiral router cutters achieve best results.
- For finishing edges with Duropal HPL edging strip, trim and finish with 300 grit sandpaper.

This information is for guidance only and is based on our experiences with the processing of our products, it does not give any guarantee of final results; guidelines should be adapted to the situation depending on the tools available. Your tool supplier should be consulted to assist in the selection of the correct tools for best results. This information is not intended to and shall not be deemed to constitute a guarantee by us of any kind or character whatsoever.

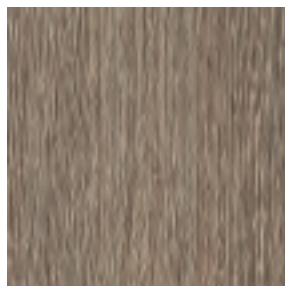

## Worktop Surfaces

### Worktop Profiles

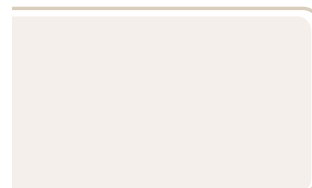

**1 - Square Edge**

**2 - Square Edge**

**3 - Axis**

**4 - Linea**

### Sizes & Edge Profiles

We have matched the thickness, square and curved edge profiles, and texture to each design to create the optimum worktop collection.

#### Square Edge (1 & 2)

This design gives a slick and contemporary look to wood and abstract worktops.

#### Curved Edge (3 & 4)

##### Axis (3)

This tight 3 mm curved edge provides a modern slab look for wood, stone and engineered worktops.

##### Linea (4)

This classic 6 mm curved edge enhances stone, wood and platinum series worktops.

#### Thicknesses

Like the worktop edges, each design has been matched with the ideal thickness to help create a chunky wood design or delicate marble slab. Worktops are available in 22 mm (1) or 38 mm (2,3 & 4), depending on the design.

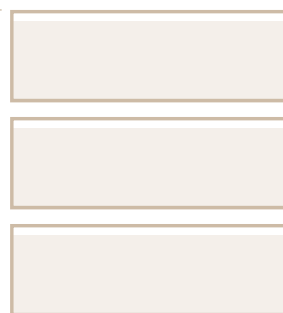

#### Sizes

Offering ultimate flexibility, the Axiom® Collection is available as worktops and breakfast bars with matching splashbacks and upstands.

#### Worktops

3000 x 600 mm  
3500 x 600 mm
